# Stakeholder Consultations

For a Global Pollinator Platform

2026

- 3 Online Meetings
- Tuesday, April 28th
- Friday, May 29th
- June (TBD)

## INFORMATION WEBINAR ON THE ESTABLISHMENT OF THE GLOBAL POLLINATOR PLATFORM

You are kindly invited to register for one of the following webinars to be held on:

SAVE THE DATES!	28 <sup>th</sup> APRIL 2026, 11:00 AM, Argentina (GMT -3)   Americas	English, Spanish	
	29 <sup>th</sup> MAY 2026, <i>time to be defined</i>   Europe & Africa	English, French	
	early JUNE 2026, <i>date and time to be defined</i>   Asia & Oceania	English	

### Background

Pollinators underpin food security, livelihoods, biodiversity, and ecosystem resilience worldwide, yet their data, knowledge and information on conservation actions remain fragmented across regions, taxa, and policy domains. Increasing calls from governments, scientists, practitioners, and civil society highlight the need for a more coordinated, inclusive, evidence/knowledge-driven approaches to pollinator conservation.

The **Commission on Genetic Resources for Food and Agriculture (CGRFA)**, endorsed by the FAO Conference, has repeatedly emphasized the vital role of pollinators in ensuring the ecosystem integrity and productivity and sustainability of agrifood systems, and has therefore called for the establishment of a global pollinator platform. [JOIN BY REGISTERING HERE FOR APRIL 28th until April 27<sup>th</sup>](#).

On **16-17 September 2026**, FAO will convene a Global Pollinator Conference at its headquarters in Rome (Italy) to consider the next steps in the establishment of the Global Pollinator Platform.

### How can you be involved?

Ahead of the Global Pollinator Conference, FAO and Apimondia are seeking input to **the Global Pollinator Conference through an online consultation process. Three webinars will be held in April and May**, scheduled at different days and varying times, to allow interested stakeholders to attend at their convenience.

The webinar will provide **updates on progress toward the establishment of the Global Pollinator Platform** and **seek participants on the needs and expectations for the Platform**.

We hope you will join the conversation.

For questions or comments, please contact: [Apimondia Secretariat](#)
